

Artist Research

Research Pablo Picasso – who was he? What was different about his work? List some of his famous pieces and explain what they show.

Mirror Image

Stand yourself in front of a mirror. Draw a self-portrait in pencil based on what you can see.

What feature did you find the hardest to draw?

Make and evaluate cakes for a children party.

Over this rotation you will watch a demonstration and have the opportunity to design and make your own cakes.

The ingredients are 1 egg, 50g caster sugar, 50g self-raising flour, 50g margarine and six paper cases.

You are to complete questions about what you have made and complete a sensory analysis. Your questions are below.

Extension to complete a star profile.

3 stars with the extension 2 starts without

Plan a day's meals based on the Eatwell Guide

One of the government incentives for healthy eating is the Eatwell Guide, we will be looking at the Eatwell guide and the different groups which are recommended to make a balanced diet.

You are to design a day's meals for yourself using the Eatwell guide.

You must include the correct portions over the day from each group also including the healthy eating rules. Low fat, Low Salt and High Fibre.

The guide to help is with the link below

HW questions for small cakes

Now you have made your product you are to evaluate and make recommendations how you could improve your product.

1. On a ranking of 1-5 how well has your product turned out?
2. How could you change the decoration so it could be served at a small children's party?
3. Name two ingredients you could use to change the flavour of your product.
4. Name two things which you have learnt in this lesson?

5. Sensory Analysis

(give your cakes a rating of 1 -5, 5 being High)

Sample	Taste	Texture	Appearance	Suitability for task
Small cakes
