<p>3D Model Making</p> <p>Design a 3D Physical or Human Geography model.</p> <p>There are many different types of models you could make, from volcanoes to river basins, rainforest structures showing plant and animal adaptations and even coastal erosion landforms!</p> <p>Look at the following link for ideas and inspiration:</p> <p>https://www.3dgeography.co.uk/geography-models</p>	<p>Biggest Highest Deepest!</p> <p>Your task is to use the internet to research the following Geographical record breakers on our amazing planet! Find:</p> <ul style="list-style-type: none"> • The tallest tree in the world • The largest mine on the planet • The longest river in the world • The deepest lake on Earth • The longest beach in the world • The coldest place on Earth • The highest town in the world • The city with the highest population 	<p>Country Project</p> <p>Complete a project about a country of your choice. Firstly, you must decide which country you would like to research. It could be a country you used to live in; a country where your family is from; a country you have visited (on holiday etc.); or it could be a country you would like to know more about - the choice is yours. Your project will need to be well presented, full of information and images.</p>
